

EMR • PRACTICE MANAGEMENT • DOCUMENT MANAGEMENT

## Electronic Medical Records

### Primary Care, Internal Medicine and Family Medicine

More than 10,000 physicians rely on Henry Schein's MicroMD software to streamline and simplify their business operations and clinical workflow to deliver high-quality care to patients and grow their practices.

**Prevention Programs** – Track results and manage screening and prevention programs; manage immunization programs; at a glance, monitor progress toward goals associated with virtually any diagnosis or risk factor.

**Custom chart summary and clinical dashboard**: Customize the chart summary to present your most relevant data elements, such as problem list, lab results, long term medications and many more; access the clinical dashboard for quick access to a comprehensive clinical profile and clinical graphs that track measures such as blood pressure, cholesterol or weight over time.

**Medication information**: Quickly review patient charts to see prescriptions. Long term medications and other medications, accurately differentiating among acute care meds and chronic meds.

**e-Prescribing**: Quickly write and route prescriptions directly to pharmacies so that medications are ready when patients arrive; save hours of staff time by streamlining prescription and refill management.

**Interfaces with lab services, hospitals and cardiopulmonary devices**: Access in-house and reference lab results from within the electronic chart; manage all diagnostic test results and images for reference at the point of care or 24-7 remote access; capture vital signs and other data directly from a wide range of devices, including electrocardiographs and Holter systems.

**Call today to learn more about the government stimulus package allowing up to \$44,000 back per physician for the successful implementation of a CCHIT certified system such as MicroMD. Ask about a free demonstration of the software at your convenience.**
